

## What is IPS?

### *Supportive Community*

Individual Placement and Support (IPS) is an innovative employment model for those with mental health conditions. Developed by Bob Drake and Debbie Becker, IPS promotes career success through personalized job placement and support, aligning with each individual's preferences and abilities.

### *Core Principles:*

- **Competitive Employment:** IPS secures accessible, fair-wage jobs without set time limits.
- **Systematic Job Development:** Employment specialists partner with employers to match job seekers based on their preferences.
- **Rapid Job Search:** A swift approach to job searching, aiming for employer contact within 30 days.
- **Integrated Services:** Coordination with mental health treatment teams for holistic support.
- **Benefits Planning:** Guidance in navigating government entitlements like Social Security and Medicaid.
- **Zero Exclusion:** Open to all, regardless of readiness or history.
- **Time-Unlimited Supports:** Ongoing, personalized support as needed.
- **Worker Preferences:** Services are guided by the individual's choices and goals.
